NASJONAL KONFERANSE OM VURDERING I HØYERE UTDANNING

16. OG 17. OKTOBER 2017 VED UIA, KRISTIANSAND

Vurdering i høyere utdanning blir gjort med ulik hensikt og forskjellig praksis, samtidig som det er et ikke tilstrekkelig belyst tema. Spesielt viser dette seg i sammenheng med økt bruk av digitale læringsstøttede verktøy som nytt eIS/LMS.

Det nasjonale kvalifikasjonsrammeverket (NKR) setter rammer for innholdet i studieprogrammene, for vurdering underveis og for avsluttende eksamen. Internasjonale trender peker i retning av større vekt på digitalisering og på overnasjonale akkrediteringsordninger. Sett i sammenheng med et sterkere vektlegging av læring gir dette mange utfordringer når det gjelder vurdering av studenter.

Universitetet i Agder vil med denne nasjonale konferansen rette fokus mot vurdering i en større sammenheng, der vi tar opp temaer som:

- > Vurdering og digitalisering
- > Vurdering og internasjonal akkreditering
- > Vurdering og kompetanseutvikling
- > Vurdering og læring
